

The string is made up of names of villains or monsters or bad guys from some shows or movies or games.

Each name has had one letter removed, and the remaining strings have been sorted and concatenated.

Categorize the names and read the missing letters to get one more name in the same category, with a letter removed.

Those removed letters from those final names (sorting the same way as the original list) spell out the answer word.

The names and categories are:

* Supernatural (TV)

AZAZEL (A)
CROWLEY (R)
LAMIA (A)
LUCIFER (C)
